

Move from Agency to Enterprise

Talentscout Enterprise is a complete suite designed specifically for leading HR service providers to help them automate and streamline their processes for continued growth.

You are an established company. You meet the talent needs of some of the largest enterprises. You want to be on the same technology path as some of your most prominent clients. You need a software that will deliver end-to-end solution through a single platform and provide you an edge over your competition.

Not just a software that will provide you functionality that you need, but a solution that will empower every aspect of your business.

Talentscout Enterprise helps you

Gain Insight to Take Best Decisions

Understand the gaps in your recruiting process to drive better performance. Talentscout's reports help you analyze the inefficiencies of your business so that you can turn them into opportunities.

Enhance Coordination and Flexibility

Being web-based, recruiters and associates across locations can log into Talentscout and work as per their predefined roles. Talentscout integrates all the components of your recruitment process- candidates, recruiters and clients- on a single platform.

Add Users without Paying Extra

Talentscout is licensed per server. You need not spend on additional licenses when you increase the number of recruiters.

Maximize your Return on Investment

Expand the existing software with next generation functionalities so that you are always ahead of your time.

Without automation, it's impossible to think of growth. Automate & see the magic it does to your business!

Vineet Narayan,
Managing Director, Pathfinder

Talentscout helped us to monitor resumes - from recruiter to team leader to the client - through the entire recruitment cycle.

Bankim Doshi,
Co- Founder, Talent Corner

Software interface

Work on Talentscout's integrated platform for your team to connect and collaborate with each other.

Centralized Database

Access Talentscout's database from home or office. Being web-based all you need is a web browser to work on Talentscout.

Advance Permissions

Have the flexibility to give a single person multiple roles. Restrict people's ability to view candidate information as per your organization's hierarchy and roles.

Intelligent Search

Find right candidates quickly and accurately with Talentscout's powerful yet easy-to-use search engine. Search through resumes with keywords and filters based on skills, actual years of experience, location, requirements and more.

Advance Sourcing Tools

Leverage your database by importing resume from various sources like excel sheets, Desktop, Outlook, job portals and career site by using advanced sourcing tools. You can import resumes in bulk or one at a time.

PR Module

Strengthen the bond with clients and candidates through Talentscout's PR module. Keep in touch, even with passive candidates and clients by sending personal emails with the help of customizable templates.

CRM Module

Define client acquisition workflow to manage clients and bag more deals with lesser resources and less time.

Billing and Incentives Module

Track every candidate till the point you receive payment against the placement. Setup your own formulae for computing incentives to be paid to recruiters.

Outlook Integration

Use Outlook Integration to send mails, reminders, updates and submit candidates to your clients directly from Talentscout without having to go to your MS Outlook account.

Reports & Analysis

View and analyze your performance with customizable reports. See the data you want in a format of your choice – excel, pdf or html.

100% Satisfaction Guarantee

If you are not satisfied with Talentscout uninstall and return the product to us within 30 days of its installation. We will immediately refund you the entire amount paid to us – no questions asked.
