

Place more people. Reap more profits. Increase Productivity.

Talentscout Overseas is the only software in the market that is made specifically with the needs of Consultants who provide manpower overseas..

Integrated Platform

Manage all activities starting from requirements to recruitments, candidate selection and visa processing on a single platform. Track the status of recruitment by client, country, project, source or recruiter.

Manage Visa Processing

Process each and every candidate through document checks, medical tests, visa applications and travel easily. Help your recruiters work with clients and projects in multiple locations at the same time without having to know the intricacies of rules and regulations of each country.

Track Recruiter Activity

Get instant reports on all recruitment activities like recruiters or team's performance, total work done on a requirement or on candidate information. Get the bigger picture to help you make informed business decisions.

Increase Recruiter Productivity

Empower your recruiters by providing them handy tools like resume parser, easy search, mass mail, to-do lists, email reminders and many more. Help them focus on placing more candidates so that you can do better business!

100% Satisfaction Guarantee

If you are not satisfied with Talentscout uninstall and return the product to us within 30 days of its installation. We will immediately refund you the entire amount paid to us – no questions asked.

After the launch of Talentscout Domestic, we realized that the needs of overseas placement agencies were different from those catering to the domestic market....

Shikha Singal,
Product Marketing Manager, Nitman Software

Hence we decided to create an entirely new product exclusively for overseas consultants. This is in line with our philosophy of creating specific products to solve specific business problems.

Shikha Singal,
Product Marketing Manager, Nitman Software

Software interface

System Requirements

| | |
|------------------|---|
| CPU | Intel Pentium IV 2.8 Ghz or equivalent |
| Memory | 2 GB (recommended) |
| Hard Disk | 40 GB, plus 2 GB for every 4000 applicants in Talentscout |
| Operating System | Windows XP or Windows 2003 Server |
| Other Software | Microsoft Word 2003 or higher |

Take advantage of Talentscout's powerful features to place more candidates and boost productivity.

Automated To-do lists

Ensure all tasks are completed by each recruiter with the help of To do lists generated by the system on the basis of your selection process and visa requirements of destination country.

Country specific templates

Ensure that your recruiters adhere to rules and regulations of each country for visa processing by setting up country based processing templates.

Excel based import

Import candidates and requirements into the system through excel sheets sent to you by your clients.

Visual Configurator

Continue to follow your time tested processes and way of working. Configure your selection process as per your needs. No need for customizations.

Extensive Reports

View and analyze your performance with customizable reports. See the data you want in a format of your choice – excel, pdf or html.

Advanced Sourcing Tools

Import resume from various sources like job portals, excel sheets, Desktop, Outlook, career site by using advanced sourcing tools. You can either import resumes in bulk or one at a time.

Billing and PR Module

Track every candidate till the point you receive payment against the placement. Use system generated reports to track candidates for whom bills should be raised.

Incentive Calculator

Set up your own formulae for computing incentives to be paid to recruiters. Incentives may be tied to interviews, selection, departure or payment receipt.

Easy to use interface

View details of open requirements by client, project or recruiter as soon as you log in. Talentscout's easy to use interface makes it highly adoptable and effective.

Org Chart

Restrict people's ability to view candidate information as per your organization's hierarchy. Have the flexibility to give a single person multiple roles e.g. a supervisor for some positions, and recruiter for others.
